

Outdoor Low Voltage Dreins Feeder Pillar

OUTDOOR LOW VOLTAGE DREINS FEEDER PILLAR

Spanners Outdoor Low Voltage Dreins Feeder Pillars are rated from 600A to 1600A and are type-tested in accordance to IEC requirements. The Dreins Feeder Pillar has 5 ways of Outgoing fitted with Dreins Fuse Switches. The Dreins Fuse Switches are organised in the 3 Phase Vertical format with dedicated switching mechanism at each phase for Single-Pole Operations.

The enclosure is designed and constructed for Outdoor applications with an Ingress Protection rating of IP54. This Feeder Pillar is widely used in the Utilities industry, especially in the regional markets. The fuse switches are rigidly mounted on Hard Drawn Tinned Copper Busbars of the specified ratings. The cabinet is secured by a padlockable system. Customized locking system to prevent unauthorized access can be designed to meet its specific requirements and conditions.
